**Subject:** Application for Software Development Engineer Position

Dear Hiring Manager,

I am a third-year Computer Science Engineering student at CMR Institute of Technology, Bangalore, and I am excited to apply for the Software Development Engineer position at Amazon. Through bootcamp courses and hands-on projects like **Gold Store Management System**, **Electronic Store Management System**, and **Flame Sensor**, I have gained practical experience in Python, SQL, and web development.

My involvement in the National Service Scheme (NSS) has helped me develop teamwork, leadership, and a strong sense of community, which I believe are valuable qualities for any professional environment. I am inspired by Amazon's focus on innovation and would love the opportunity to learn and grow while contributing to impactful projects.

Thank you for considering my application. I look forward to the chance to discuss how my skills and experiences align with Amazon's goals.

Sincerely,

**G.K.NEHA**
